TIME TO REBEL

Women Should No Longer Accept Ridiculous Paris Fashions.

Mrs. Percy V. Pennybacker, President of the General Federation of Women's clubs, declares American women must issue a declaration of independence. She says:  
"Low cut bodies and the ridiculous skirts should be tabooed like bad manners. The shop girl, not the woman of wealth, is the real victim of the autocrat who sets fashions. The girl who works thinks she must wear 'stylish' clothes. She copies the freaks designed for women with millions and can afford only the cheap copy. American women must issue a declaration of independence and cut loose from the Paris custom. If we made use of our own artistic preceptions we would have gowns more suitable, comfortable and becoming than any sent from abroad. Extremes should always be avoided, even in dress, and particularly the extremes seen everywhere in the clothes of women today."

MEDIATION  
A FIASCO

Both Sides Imposing Impossible Conditions For Peace.

VILLA DEFIES CARRANZA.

Strong Hand of Uncle Sam Again Appears Only Adequate Remedy.

Niagara Falls, Ont., June 17.—Justice Lamar and Frederick W. Lehmann, the American delegates to the mediation conference, went to Buffalo yesterday and talked for four hours with Rafael Zubaran and Louis Cabera, personal representatives of General Carranza. Their purpose was to find some way to bring the constitutionalists in harmony with the scope of mediation. The mission was a failure.

The constitutionalists representatives who had come from Washington especially to see the American delegates, told them why they could not agree to an armistice; that only a man prominent in the constitutionalist ranks could be accepted by them for the provisional presidency, and finally they said they believed the constitutionalist army would settle the Mexican problem soon if left unhampered by foreign complications.

The Americans returned to Niagara Falls feeling that so far as the political pacification of Mexico is concerned mediation had accomplished nothing, and probably the end of the conferences was very near.

The next full conference is set for Friday. Until then little will be done because of the absence of Minister Naon of Argentina.

Most of the principals here incline to the view that Friday's session may be the last virtually, and have abandoned hope of solving Mexico's internal problems. The Huerta delegates are resolute in their determination not to accept a constitutionalist partisan for the provisional presidency, and there appears no feasible way of keeping all elements in conference much longer. Only developments not now foreseen, such as a change of attitude on the part of the constitutionalists of the Huerta delegates, can keep the conference in session.

Dispatches of the forcible seizure by a Villa official of the telegraph office at Juarez, held previously by Carranza officials, created a stir in the mediation colony. The Huerta delegates said it plainly showed the correctness of their repeated warnings that a lack of cohesion in the constitutionalist ranks would lead to anarchy in the north. The news served also to confirm suspicions current in many quarters here of a breach between Villa and Carranza. Incidentally it is understood the American delegates inquired of Carranza and Zubaran what they thought of the stories of a split between Villa and Carranza. The constitutionalist emissaries said they had confidence in General Carranza's tact and ability to smooth out such difficulties.

The gravest apprehension, nevertheless, is felt here of what may follow a break between Carranza and Villa. Should their forces clash, a condition of anarchy might ensue which in all probability would arouse again the demand for armed intervention by the United States.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

ROGER BACON

Who 700 Years Ago Predicted Twentieth Century Wonders.

Twentieth century science acknowledged its debt to a thirteenth century savant last week when the University of Oxford celebrated the seven hundredth anniversary of the birth of Roger Bacon.

From every corner of the world distinguished scholars came to do honor to the memory of the Franciscan friar whose conclusions, written in a call in a mediaeval cloister, have been triumphantly verified in the laboratories of the twentieth century.

The following paragraphs, taken from one of his greatest works, the Opus Magnum, are almost diabolical in their knowledge of what science has since brought forth:

"One may cause to burst from bronze, thunderbolts more formidable than those produced by nature. A small quantity of prepared matter occasions a terrible explosion, accompanied by a brilliant light. One may multiply this phenomenon so for as to destroy a city or an army."

"Art can construct instruments of navigation, such that the largest vessels, governed by a single man, will traverse rivers and seas more rapidly than if they were filled with oarsmen. One may also make carriages which, without the aid of any animals, will run with remarkable swiftness."

"We can so shape transparent substances that objects may be seen far or near, and thus, from an incredible distance, we may read the smallest letters and number the grains of dust and sand."
